

Matt Pollick
Chief Operating Officer

Matt Pollick was appointed Chief Operating Officer in November of 2019. In his role, Matt oversees all Global Manufacturing and Distribution Operations, as well as Global Quality, Customer Service and Manufacturing Engineering.

Prior to joining Horizon Global, Pollick served as Executive Vice President of Industrial Management for Gestamp North America (“Gestamp”), a company dedicated to the design, development and manufacture of metal automotive components, from September 2016 to November 2019. During his tenure at Gestamp, Matt opened five new plants and supported the launch of over \$1B in annual new business for Gestamp. From April 2014 to September 2016, as General Manager of Bowling Green Metalforming, a subsidiary of Magna International, a leading global automotive mobility technology and automotive parts supplier (“Magna”), Matt implemented cost savings through material utilization (MUDD) improvements and reduced working capital through inventory reductions by optimizing operational processes. Prior to joining Magna, from April 2002 to April 2014, Matt held roles of increasing responsibility at Tower International, a leading manufacturer of engineered automotive structural metal components and assemblies, ultimately serving as its Director of Operations.

Matt holds an MBA from Michigan State University, a Bachelor of Business Administration degree from Baker College and Associate of Applied Science in Robotics and Electronics from Washtenaw Community College.
